

THE DOER

Elder statesmen, who share a long held secret, are being assassinated throughout the capitals of Europe. Detective Pierre Rousseau of the French Police Nationale leads the international investigation and focuses his efforts on finding a connection between the victims. The members of the European Union unanimously approve a bold proposal which challenges Americas role as the worlds sole superpower. Jim Shannon sees the list of assassination targets and flies to London to enlist the help of his twin brother, Tim. While the worlds attention is focused on the crisis between America and Europe, Rousseau and the Shannons discover the secret that connects the victims, the person behind the high-level assassinations, and a much more sinister plot.
