

The Weeping Mulberry Bush

The Weeping Mulberry Bush is a story of three characters that are connected by fateful bonds that transcend space, time and the confines of the human mind. Bekezela is a young girl who lives a sun-drenched, carefree life in Bulawayo, Rhodesia. Her world is dominated by racial segregation, upheavals and a bush war that is ending the reign of Ian Smith and giving birth to Zimbabwe. Bekezela's life is changed forever at the hands of The Weeping Mulberry bush. Maya is blonde, beautiful with blue eyes and is disillusioned with her life in London and is preparing for a life as a Sannyasin on the foothills of the Himalayas in India. Kieran O Connor a boy of Irish descent is separated from his mother and father. All he has is the wisdom of his Grandfather to help him process the pain of separation and understand his mother and father's love story.
