

MISTER DEATH and THE JUDGE: A Western Novel

1870 Nebraska. Sam DEath and Judge Aldermire make an unlikely team. Their task is to dispense tough frontier justice and the Judge likes to keep things simple in his circuit court, which means that most cases end in a terminal way. But bad news travels fast and when it reaches Sam he has to leave off stretching necks to take time out for some personal justice. The trail he and the Judge follow takes them to Capable Springs and a crime that cuts Sam to the heart. As they seek out the perpetrators things get complicated, theres a vicious cannibal on the loose and a sensual half-breed girl that catches Sams eye. With a professional gunman and a wealthy rancher waiting in the sidelines, it takes more than a length of hemp rope and a noose to settle the score. Solving the case and finding the perpetrators takes Sam and the Judge deeper into a devious scheme that unexpectedly reaches far beyond the sleepy town. As a result the townsfolk of Capable Springs face a vengeful band of gunmen eager to stop the news from ever getting out and if it means the towns total destruction, well, thats just too bad. The town soon discovers that wherever they go, the place is never the same again after Mister DEath and The Judge come calling.
